

Model 4000

- 4 HP GX series commercial OHV 4-cycle engine with oil alert
- LP Piston pump, triple-life packings, externally adjustable
- Operates at low speeds for minimal vibration and noise levels
- Compact square tube frame is lightweight yet strong
- Easy to use and quick to clean—ideal for one-man operation
- Foot operated parking brake holds the machine on inclines
- Handlebars adjust up & down and mount at either end
- Bucket holder adjusts for oversized containers
- Front swivel wheel with turnbuckle adjustable RADIUS MEMORY™
- Spray gun mounts on any corner with quick release for curb and stencil painting

Model 4500

- Dependable 5.5HP OHV commercial engine with oil alert
- Airlessco's patented SL Slow-Stroker™ Piston type paint pump
- Powder coated frame, anodized and chrome plated heavy duty hardware
- Front wheel can remain locked for straight lines, or be operator released from the handlebars allowing the front wheel to swivel when painting curves or circles.
- Adjustable turnbuckles provide RADIUS MEMORY™ for consistent striping of arcs and circles
- High flow, high pressure filter filters the paint without restricting paint flow to the guns
- Handlebars can be mounted at either end of the frame with quickly adjustable height to suit operator
- Gun mount is adjustable to spray any angle including sideways to paint curbs
- Available with optional 2nd gun kit

shown with 2nd gun kit

Model 6000

- 5.5 HP OHV commercial grade engine with oil alert
- SL Slow-Stroker™ Piston type paint pump
- Extra large pneumatic tires and tapered wheel bearings
- Move gun assembly in seconds; left/right, front/back—no tools needed
- Adjustable height handle attaches to either end of the frame. Allows striper to have a trailing swivel wheel when desired
- Rear axle position is adjustable to get perfect balance when using oversized containers
- Dual swivel wheels with turnbuckle based RADIUS MEMORY™ counter rotate for easier line up of the striper when doing parking stalls
- Two-position lock on the front caster allows operator to stripe to a wall or to lengthen the wheelbase for increased directional stability when painting long lines
- Available with optional 2nd gun kit

Model No.	Power	Pump	Annual Usage	Max. Pressure	Max. Output	Hose Size	2nd Gun Kit*	Weight
4000	4 HP Honda	LP Piston	500 - 2500 gal.	2500 PSI	0.8 GPM	¼" x 50'	N/A	190 lbs.
4500	5.5 HP Honda	SL Slow Stroker Piston™	up to 7500 gal.	500 - 3000 PSI	1.5 GPM	⅜" x 50'	Available	250 lbs.
6000	5.5 HP Honda	SL Slow Stroker Piston™	up to 7500 gal.	500 - 3000 PSI	1.5 GPM	⅜" x 50'	Available	275 lbs.

* optional

ACCESSORIES

- No. 100-064** (12) paint strainers to cover suction filter
- No. 100-065** (12) paint strainers for 5-gallon containers
- No. 010-019** 1-gallon bottle pump conditioner for piston pumps to prevent packing wear
- No. 114-030** Stay Clean™ spray protectant for machine to prevent paint from sticking to it
- No. 188-392** Throat Seal Oil used in wet cup of piston pump to prevent damage to upper packing
- No. 305-186** 1-gun bead dispenser kit 4" and 6"
- No. 305-187** 2-gun bead dispenser kit 4" and 6" (Model 4500 and 6000 only)
- No. 305-265** R/S Ride & Stripe option: 5.5 HP Honda electric start engine powers hydraulic wheel motors for productivity striping up to 10 MPH. Foot pedal controls forward/reverse motion. Attaches to model 6000 only with standard trailer/ ball hitch

AIRLESS PAINT STRIPERS
