

Michael Todd
& COMPANY, INC.

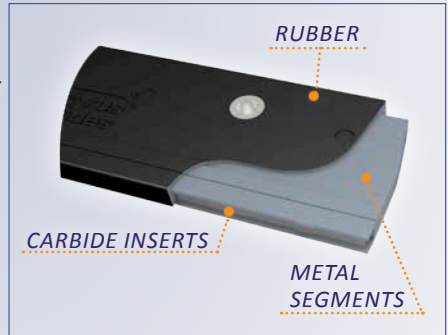

JOMA[®] STYLE SYSTEM

SUPERIOR PRODUCT for IMPROVED WEAR LIFE and STRENGTH

This system is designed with tungsten carbide inserted blades encased in specially formulated rubber to meet the demands of our snow plow customers.

*Used throughout North America in the most severe winter conditions.
Offered in 3' and 4' lengths.*

REDUCED VIBRATION AND NOISE

Quieter cab for the operator.

Reduces structural failures on the truck and plow.

LONGER WEAR LIFE

Designed to match varying road shapes and curves.

Minimizes highway marker damage.
